

UKAPU Skype Meeting 23rd August 2016

Present: Matt Furey-King, David Weston, James Williams

Apologies: Alex Abramain, Paul Cook, Lee Dempsey, Ben Simmonds

Email and Ordering issues

David has been looking into this issue and has identified a potential solution.

Action Item 16-1 James to contact paypal to see if “reference transaction” can be enabled to solve the issue.

EU legislation update

French Association has emailed us to explain all the amendments have been collated into one main document. Airsoft seems to be completely off the agenda unless this document is changed again.

Blank firing grenades could be affected, but the information is confusing and often contradictory.

Player Reps

Alex Abramain has been nominated as SE rep, proposed by MKF and agreed by all.

PCB updates

With this new amendment in the Lords we feel that the priority should be to kill this off.

David felt that highlighting the commercial interest and direction behind this amendment is important.

Lowering the lethal limit we feel is contrary to the public safety as it bypasses the VCRA in its entirety for most airsoft RiFs.

MFK has made a document outlining a plan of action.

Action 16-2 MFK to post asking members to question their local site/shops about this amendment and what they know.

Action 16-3 David to tidy and tart up the save airsoft group.

Action 16-4 David to run a mailchimp test

Adrian was intending to feel out other organisations for their feeling son airsoft.
MFK to check in with the Home Office.

Action 16-5 David was going to find out more info on the committee make up and active Lords making amendments.

Action 16-6 MFK to run through the current FAQ we have made.

Expenses

We haven't had the issue crop up previously but we feel that expenses should be agreed in advance.

David Weston: £40 Travel costs
 £109.20 Polo shirts

Will Knowle: £50.18 London meeting fuel

James Williams: £302.40 Badger Badges

Matt Furey-King: Approx £1K receipts to come but the bulk is travel to Brussels meetings at no notice.
